Good morning please take a seat. How can I help you today? Good morning doctor. I've been feeling unwell for a while now so I thought I should get checked. I see before we begin, let me note down your details. May may I have your full name? date of birth male what's your weight and height weight is 63 kgG and my height is 6 feet inch thank you Mohit now please describe the symptoms you have been experiencing. I have been feeling constant fatigue, a mild fever that comes and goes and a sore throat. I also have body aches and my appetite has reduced. I see how long have you been experiencing these symptoms? It started around
